GAIA

ITALIAN BATHROOM DESIGN

GAIA
ITALIAN BATHROOM DESIGN

Celebriamo l'incontro tra Design, Funzionalità e Emozione.

We celebrate the intersection among Design, Functionality and Emotion.

Siamo qui per narrare una storia, quella in cui le collezioni hanno il potere di trasformare gli ambienti in spazi di vita autentici. In questo scenario si rivelano alcuni elementi per noi ricorrenti: passione, personalizzazione, inesauribile creatività, pura artigianalità e continua evoluzione. La nostra aspirazione è creare opere in grado di coinvolgere a livello emotivo, oltre che capaci di esaudire le esigenze funzionali. Le collezioni riflettono questo desiderio interpretando le trasformazioni sociali e dando voce alle singole riflessioni dei clienti. Mettiamo a disposizione la nostra professionalità per personalizzare gli arredi ascoltando le esigenze di chi vivrà quegli stessi ambienti. La trama della storia cambia continuamente: ogni pezzo realizzato su misura acquisisce un valore esclusivo, in cui l'estrema cura del dettaglio è espressione della nostra eredità artigianale. Tutte le lavorazioni, infatti, avvengono manualmente: ciò che prende forma sono elementi d'arredo di altissima qualità e senso estetico. In questa storia il cliente è il fulcro di molteplici racconti in cui si esprime il potenziale dell'ambiente bagno trasmettendo ogni volta sensazioni differenti, riflesso delle stesse persone che lo hanno ispirato. Siamo qui per celebrare questo incontro, quello tra essere umano, design e sperimentazione. Un'esperienza quotidiana elegante, versatile e personalizzata.

We are here to tell you a story about how the environment can be changed through our collections, into authentic living spaces. This scenario reveals some of our recurring elements: passion, personalization, never ending creativity, pure craftsmanship and continuous evolution. Our main aim is to create pieces which can engage emotionally, besides their functional needs. Our collections show this desire, interpreting the social changes and giving voice to the singular considerations of the customers. We put our knowledge and professionalism at the disposal of whom will live in those locations. The plot changes over and over again: each piece realized to order has an exclusive value, where the extreme care of the details is the expression of our handmade legacy. All the personalized manufacturing is handcrafted: the result is a high-quality piece of furniture with a great aesthetic sense. In this story the customer is the centre of multiple tales, which express the potential of the bathroom, carrying the different sensations of those who inspired it. We are here to celebrate this meeting, among the human being, the design and the evolution. An elegant, versatile and personalized daily experience.

Il valore degli spazi artigianali.

The value of artisanal spaces.

La sensibilità estetica delle tecniche artigianali conferisce alle nostre collezioni l'esclusività di dettagli e finiture Made in Italy. Ogni pezzo è un'opera irripetibile di qualità superiore, che conserva dentro di sé tutto il valore di un oggetto realizzato a mano. Queste creazioni sono la manifestazione della nostra visione e lasciano al cliente la possibilità di esprimersi attraverso le personalizzazioni, trasferendo di volta in volta un nuovo significato al progetto.

The aesthetic sensitivity of the handcraft techniques provides to our collections the exclusivity of the details and finishings Made in Italy. Every piece is a unique work, which carries all the value and the quality of a handmade object. These creations are the display of our vision and leave the possibility to customer to express through the personalization, giving to the project each time a new meaning.

Un linguaggio estetico fatto di linee, curve e volumi. Contaminazioni di stili e stilemi tra classico e contemporaneo, in una nuova traduzione materica dell'arredo bagno.

An aesthetic language made of lines, curves and volumes. A contamination of styles and motif, between classic and contemporary, a new tangible translation of the bathroom furnishing.

Ogni particolare, nel suo design e nella sua identità, conferisce valore al contesto e completa il progetto stilistico. Un gioco di forme e concetti che trasferiscono profondità e significato all'ambiente.

Every detail, in its design and identity, gives value to the context and completes the stylistic project. A play of shapes and concepts that transfer depth and meaning to the environment.

In ogni spazio, la magia risiede nell'atmosfera creata dalle singole luci. Elementi luminosi che trasmettono sensazioni, trasformando l'ordinario in uno scenario straordinario e concettualmente avvolgente.

In every space the magical atmosphere is made by the single lights. Bright elements bringing sensations, turning the ordinary in extraordinary.

Elementi che si fondono in modo organico con lo spazio e il design circostante, esprimendo una sinfonia visiva senza pari.a.

Elements blending with the surrounding space and design, expressing a unique visual work of art.

Heated towel rail Scaldasalviette

Technical Information and Warnings

Informazioni Tecniche e Avvertenze

I FATTORI DI CONVERSIONE

Di seguito riportati permettono di calcolare la resa termica dello scaldasalviette utilizzando caldaie che lavorano a temperature diverse dalle tradizionali. GAIA, da sempre attenta alle tematiche sul risparmio energetico, offre così al progettista e all'installatore uno strumento semplice ed immediato per progettare ambienti con i nostri prodotti integrati a sistemi a bassa temperatura e tradizionali ad alta temperatura.

L'intestazione delle colonne della tabella riportano:

• **fattore "n", ovvero l'esponente della curva caratteristica potenza in relazione al Δt. In tabella è riportato un valore medio: l'esponente infatti è anche funzione dell'altezza del radiatore.**

• **coefficiente di conversione per le diverse tipologie di impianto. Il Δt indica la differenza tra la temperatura media del fluido nel radiatore e la temperatura media nell'ambiente in cui è installato.**

COME CALCOLARE LA POTENZA:

$W\Delta t$ scelto = $W\Delta t 50^\circ$ x coefficiente di conversione scelto

Esempio:
DALLAS ha potenza di 220 W a Δt 50°. Di quanta potenza ha bisogno un impianto collegato a bassa temperatura Δt 30°? Il coefficiente a Δt 30° per DALLAS è 0,51.
 $0,51 \times 220 = 112,2$ W Δt 30°

MODELLO MODELLO	ESPONENTE EXPONENT	COEFFICIENTE DI CONVERSIONE CONVERSION FACTOR				
	"n"	Δt 20°	Δt 30°	Δt 40°	Δt 50°	Δt 60°
ATLANTA	1,30	0,31	0,52	0,75	1,00	1,27
BALTIMORA	1,26	0,32	0,53	0,75	1,00	1,25

THE CONVERSION FACTORS

Shown below, allow to calculate the thermal output of the towel warmer working with boilers that operate at different temperatures from traditional ones. GAIA, which has always been attentive to energy saving issues, thus offers the designer and installer a simple and immediate tool for designing environments with our products integrated with low temperature and traditional high temperature systems.

The column headers of the table show:

• "n" factors, i.e. the exponent of the power characteristic curve in relation to Δt . The table shows an average value: the exponent is related to the dimensions of radiator.

• conversion coefficient for the different types of systems. The Δt indicates the difference between the average temperature of the fluid in the radiator and the average temperature in the environment where the radiator is installed.

HOW TO CALCULATE THE HEAT POWER:

$W\Delta t$ chosen = $W\Delta t 50^\circ$ x conversion coefficient chosen

Example:
DALLAS has a thermal output of 220 W at Δt 50°. How much thermal power does a system connected to a low temperature Δt 30° need? The coefficient at Δt 30° for DALLAS is 0,51
 $0,51 \times 220 = 112,2$ W Δt 30°

Si ricorda che gli scaldasalviette elettrici non possono essere installati nelle aree sovrastanti vasche da bagno e all'interno di cabine doccia (zona 1), a garanzia della sicurezza dell'utilizzatore stesso.

I radiatori con resistenza elettrica in Classe 1 possono essere installati ad una distanza superiore ai 60 cm dal perimetro di vasche da bagno e cabine doccia (zona 3).

Su richiesta è possibile fornire il radiatore elettrico con resistenza in Classe 2 a doppio isolamento: in questo caso il radiatore può essere installato su pareti adiacenti vasche e cabine doccia (zona 2) ma resta valido il divieto di installarlo all'interno dei perimetri di vasche da bagno e cabine doccia (zona 1).

Please remember that electric towel warmers cannot be installed in the areas above bathtubs and inside shower cabins (zone 1), to guarantee the safety of the user.

Radiators with Class 1 electrical resistance can be installed at a distance more than 60 cm from the perimeter of bathtubs and shower cubicles (zone 3).

On request it is possible to supply the electric radiator with double insulation resistance "Class 2": in this case the radiator may be installed on walls adjacent to bathtubs and shower cabins (zone 2) but the ban on installing it within the perimeters of bathtubs and shower cabins remains valid (zone 1).

AVVERTENZE:

L'installazione del radiatore deve essere eseguita solo da personale esperto ed autorizzato.

Il radiatore è un apparecchio fisso.

Prima della messa in funzione, deve essere ancorato saldamente su una parete verticale.

- Il radiatore elettrico non deve mai essere installato sopra, sotto o davanti alla presa elettrica; deve essere installato con la resistenza elettrica in basso
- Il radiatore viene fornito già caricato con liquido a base di glicole; la resistenza elettrica e i tappi sono già montati e il sistema è già tarato. Non aprire i tappi, lo sfiatino e non manomettere la resistenza elettrica.
- Per la pulizia dei corpi scaldanti non si deve utilizzare prodotti chimici aggressivi e materiali abrasivi. E' sufficiente un panno morbido inumidito con acqua.
- Per evitare rischi a bambini, questo prodotto dovrebbe essere installato in maniera che la parte calda più bassa si trovi ad un'altezza di almeno 600 [mm] dal pavimento.
- Il radiatore non è un apparecchio da incasso.
- Quando si installa o si rimuove il cavo di alimentazione (termostato o il copri resistenza) al radiatore, assicurarsi che l'alimentazione della rete elettrica sia disinserita.
- Assicurarsi che la parete sia adeguatamente resistente per sopportare il peso del radiatore.
- Assicurarsi che non passi nessun tubo o cavo nella posizione che si intende forare.
- Assicurarsi che il tassello in dotazione sia idoneo alla parete su cui verrà installato il radiatore (ad esempio si sconsiglia l'uso su cartongesso o legno).
- Prestare attenzione se si lasciano ad asciugare i tessuti colorati: potrebbero stingere e macchiare la vernice del radiatore.

WARNINGS:

The installation of the radiator must only be carried out by expert and authorized personnel.

The radiator is a fixed device.

Before commissioning, it must be securely anchored to a vertical wall.

The electric radiator must never be installed above, below or in front of the electrical socket; must be installed with the electrical resistance at the bottom.

- The radiator is already supplied filled with glycol-based liquid; the electrical resistance and the caps are already mounted and the system is already calibrated. Do not open the caps, the air-vent cap and do not tamper with the electrical resistance.
- To clean the heating elements, do not use aggressive chemical products and abrasive materials. A soft cloth moistened with water is sufficient.
- To avoid risks to children, this product should be installed so that the lowest hot part is at a height of at least 600 [mm] from the floor.
- The radiator is not a built-in device.
- When installing or removing the power cable (thermostat or heater cover) from the radiator, ensure that the mains power supply is switched off.
- Make sure the wall is adequately strong to support the weight of the radiator.
- Make sure that no pipes or cables pass through the location you intend to drill.
- Make sure that the supplied anchor is suitable for the wall on which the radiator will be installed (for example, use on plasterboard or wood is not recommended).
- Be careful if you leave coloured fabrics to dry: they could fade and stain the radiator paint.

Fanno parte della finitura LC le seguenti colorazioni:

- RAL 9016 lucido (bianco traffico)
- RAL 9003 opaco (bianco segnale)
- RAL 1013 lucido e opaco (bianco perla)
- RAL 7032 opaco (grigio ghiaia)

Condizioni generali di vendita. ITALIA

Le presenti condizioni generali disciplinano tutti i contratti di vendita tra le parti. Illustrazioni, descrizioni e caratteristiche tecniche non sono impegnative e possono essere variate senza alcun preavviso. Inoltre GAIA srl si riserva il diritto di apportare ai prodotti tutte le modifiche che ritenga necessarie per migliorarne il funzionamento.

LA PULIZIA:
Per una corretta manutenzione e pulizia dei nostri prodotti si consiglia l'utilizzo di una spugna inumidita con acqua e nulla di abrasivo. Detergenti, liquidi o paste lucidanti, acidi in genere non devono mai essere utilizzati.

PREZZI:
I prezzi del nostro listino possono essere soggetti a variazioni. Essi si intendono franco nostro stabilimento di Casalgrande, IVA e imballo esclusi.

ORDINI:
Non si accettano ordini telefonici. Saranno considerati validi solo quelli trasmessi via e-mail. Gli ordini vengono evasi salvo disponibilità e le relative spedizioni possono essere effettuate anche parzialmente. Il committente, sottoscrivendo un ordine, dichiara di conoscere ed accettare integralmente le condizioni di GAIA srl.

CONSEGNA:
I termini di consegna non sono impegnativi, ma subordinati alla possibilità di fabbricazione. Eventuali ritardi non potranno dar luogo né all'annullamento dell'ordine, né a pretese di rifusione dei danni.

PAGAMENTI:
Le scadenze stabilite per i pagamenti sono tassative. Per il ritardo nei pagamenti di tali scadenze, verranno applicati i tassi di interesse, previsti per lo scoperto bancario ai sensi degli art. 1523 e segg. del c.c. di conseguenza fino al totale pagamento dell'intero prezzo, compresi eventuali interessi ed accessori tutti, le merci rimangono di proprietà di GAIA srl. Per nessun motivo, ivi compresi pretesi vizi o difetti del materiale, il compratore potrà sospendere o ritardare il pagamento del materiale ritirato. Ogni tipo di ritardo o irregolarità nel pagamento da a GAIA srl il diritto di sospendere le forniture o di risolvere contratti in corso, anche non relativi ai pagamenti in questione.

RECLAMI:
Controllare sempre che vi sia corrispondenza tra il materiale consegnato ed il Vs ordine e che il materiale non presenti imperfezioni sfuggite al nostro controllo qualità. Tutti i reclami dovranno pervenire per iscritto via e-mail entro 8 giorni dal ricevimento della merce. Non è possibile riconoscere reclami oltre questo termine, anche se preavvisati telefonicamente. I difetti di produzione riscontrati prima dell'installazione o montaggio dei prodotti GAIA srl, andranno segnalati al nostro ufficio e visionati da un nostro incaricato che ne constaterà l'eventuale responsabilità dell'azienda. Solo dopo quest'ultima verifica, GAIA srl provvederà alla sostituzione del materiale difettoso, nel più breve tempo possibile. Non si accettano resi di merce fuori produzione per nessuna ragione. Nessuna contestazione solleva il compratore, dal pagamento della merce nei termini stabiliti. Il rifiuto o eventuali ritardi da parte del compratore, sospendono ed annullano ogni diritto di sostituzione.

RESI:
Non si accettano resi se non autorizzati e se non recanti in bolla il numero della ns. fattura a cui si riferiscono. I resi non conformi a quanto sopra verranno respinti; per ogni controversia è competente il Foro di Modena.

PREVENTIVI:
I nostri preventivi si ritengono validi per un massimo di 60 giorni.

GARANZIA:
Tutti i nostri prodotti sono garantiti per la durata di anni 2 dalla data di acquisto presso il nostro stabilimento. La garanzia include la riparazione o la sostituzione della parte risultata difettosa all'atto del funzionamento, per cause di fabbricazione riconosciute dal nostro ufficio tecnico. La garanzia decade se i prodotti vengono installati o utilizzati in modo non conforme come difetti causati da cadute o urti; se maldestramente manomessi; se a monte della rubinetteria non sono stati installati filtri e addolcitori; se i difetti presentati si riferiscono a macchie o alterazioni della finitura esterna anche dovute a normale usura di esercizio.

NB:
Le tonalità, le tinte ed i colori del fotografico di questo catalogo, sono da considerarsi puramente indicative e non strettamente vincolanti. I prodotti possono subire piccole variazioni nelle misure rispetto alle schede tecniche dovute alla lavorazione artigianale. Il presente catalogo annulla e sostituisce tutti i precedenti.

General sales conditions. EXPORT

The following sales conditions rule all the sales between the parties. The illustrations, descriptions and technical data are not binding and are subject to change with no communications. Furthermore, GAIA srl reserves the right to modify the products if it is held necessary in order to improve their functioning.

CLEANING:
We would like to suggest a few simple rules to keep clean and bright our bathroom items. For regular cleaning of surfaces, it is necessary to use a sponge dampened with water and wipe with no abrasive sponge. Abrasives, polishing liquids or pastes, acids in general should never be used.

PRICES:
The price list may be subjected to variations. The term of delivery is ex-factory; the prices are without VAT.

ORDERS:
We do not accept orders by phone. The orders will be considered as confirmed only if sent via email. The client, by signing an order, declares to know and accept all the terms of sales of GAIA srl.

DELIVERY:
The delivery terms are not binding, but subject to manufacturing capabilities. Any delay will not result in either cancellation of the order, refund or economical compensation.

PAYMENTS:
The payment is in advance and mandatory. For late payment of such deadlines, we will apply interest rates provided for under art. overdraft. 1523 e segg. of c.c. accordingly to the total price paid. The goods will be Gaia's property upon the receipt of the whole amount.

CLAIMS:
As soon as the goods are received, please check that there is a correspondence between items delivered and your order and if are present imperfections escaped at our quality control. All complains must be submitted in writing by email within eight days from receipt of goods. No claims are accepted beyond that period. If manufacturing defects are found prior to installation or assembling, please report them via email along with video or pictures and our personnel will carefully examine it. Only after this process, GAIA srl will replace the defective item, if the claim is accepted. The delivery of claimed items is also EXW. Moreover, we do not accept returns of goods out of production. No complaints justifies the buyer to not pay the goods.

RETURNS:
Returns are not accepted unless authorized. Returns do not comply with the foregoing will be rejected, and for any dispute we will refer to the Court of Modena.

QUOTES:
Our quotation are valid for a maximum of 60 days.

WARRANTY:
All our products are guaranteed for a period of 2 years from the invoicing date. The warranty includes repair or replacement of the defective part, for manufactory reasons recognized by our technical department. The warranty is void if the products are installed or used improperly. (cancellare) Defects caused by lack of proper cleaning, maintenance or mishandling by the customers or plumbers, are not covered by the warranty.

NOTE:
The shades and colours of the picture of this catalogue are purely indicative and not binding. The products may undergo small changes in relation to technical measures due to the craft. This catalogue nullifies and replaces the previous one.
